

THE DAWNSONG

HOPE DECKED OUT FOR THE HOLIDAYS AND LUCKY ABOVE

Happy Holidays!

Can you believe it's December already? I can't! Why do the years seem to be flying by faster? I sure wish they would slow down!

With 2011 just around the corner new products will soon be released. More on those see page 2.

We have adopted a momma cat and her kitten that we found starving on our property.

I will never understand how a human being can throw away animals. Momma is very shy and timid, she must have really been abused, she is having a hard time adjusting. The kitten on the hand, is doing very well. Never having

owned a cat I am learning as we go along, if you have any tips you would like to share with me they sure would be appreciated. You can send me an [email](#) with any tips you may have.

Robert and I wish everyone a very blessed Holiday season and a Happy New Year!

LAST "CHANCE"

CHANCE AND LUCKY

"LUCKY" TO BE ALIVE

New Products for 2011

Hmm where to begin...How about the NightGuard Owl Lights. I have used these lights for 2 years now and for my colony they are working. I have spoke to many landlords who are using these solar powered lights with great success. To use the lights you need a light holder and we have designed an adjustable light holder that will work on any of our racks!

Next up is the brake winch extension handle. Many landlords, myself included, hate crawling out from underneath the racks. I complained about this to Robert who made me the prototype extension handle and I loved it. I must warn you, you will get a workout!

Troyer Vent Hole plugs are sure to become a favorite of landlords. After you drill a 1/4" size hole into the vent canopies found on Troyer gourds, slip the vent plug into the hole. It will stay in place due to the T-shaped end. You can leave the plug hanging open or push it into the hole to close the vent hole.

Accessory kit for 3" poles. So many landlords have asked us for this. It contains everything from the ball top to the winch brackets.

The Multipurpose pole has been redesigned and better than ever. Also new the Universal Hub for round poles. This hub will fit your own round pole from 1" - 2-1/2" OD. You have your choice of aluminum or stainless steel gourd arms.

Convert A Rack for the AAA, Round Rack and Multipurpose poles using the 2" square pole. The Convert A Rack will convert your rope and pulley to a cable with winch.

Troyer Horizontal Gourd Trap. For the original Troyer Horizontal with the round hole and cling plate. Attaches to the cling plate for catching House Sparrows and Starlings.

Wooden Bluebird Insert Trap. I found a box full of the shutter door plates so we brought this trap out of retirement. Made from MDO, and ships fully assembled.

Novathene Liners for caps. 36 mils waterproof, and durable.

2011 we will still be offering monthly specials, package deals and delivered pricing.

DELIVERED!

IF YOU HAD TAKEN
ADVANTAGE OF EVERY
MONTHLY SPECIAL YOU
WOULD HAVE SAVED:

JANUARY THRU DECEMBER

\$576.95!

News...

I recently learned a fantastic tip for removing ticks from your pet from my veterinarian! When you find a tick that is attached to the animal, squirt on liquid soap and let it set on the tick for a minute or two. The liquid soap suffocates the tick and it backs out of the skin. Using your finger swirl the soap around the fur. The dead tick will float in the liquid soap. Pull out of the fur and throw the dead tick away!

The 2011 catalog will be mailing by years end. If you or any one you know would like to receive our free catalog send me an [email](#) with the names and addresses.

Safe Haven aluminum martin houses are still available in limited supply. Due to our very hectic year, this product which is the most time consuming to make,

was placed on the back burner. We have no intentions of discontinuing the house, but we may run out before the next run is made.

We have a newer, stronger aluminum ground stake for our 2" square poles. They are shipping now with the 14' tall poles.

Pricing for 2011 products will see a small increase across the board.

Don't forget we offer on-line ordering. You can now access us 24-7!

Holiday Hours: Closed Thursday December 23 and Friday December 24. Closed Friday December 31 for New Years day.
